# CLARKE

INFINITY

Clarke Infinity specialises in smart homes, experts in AV that transforms houses and living experiences - bespoke design and installation, sound and entertainment, lighting, home cinema, automation and control, CCTV and security, through to full system support.

Established over 30 years ago, Clarke Infinity is one of the oldest companies within the AV industry in the UK. Our bespoke service draws heavily on the invaluable expertise our team has acquired over the years and we boast a large residential and commercial client base both in the UK and Internationally.

We are known for creating fully controllable environments with each system designed to cater for our customers' specific and often demanding needs, guaranteeing a simple operation at all times.

## TRUSTED OPTIONS - QUALITY ASSURED

Our specialist team deliver an exceptional standard of work throughout the design process, installation and aftercare.

Clarke Infinity is an accredited member of CEDIA (Custom Electronics Design and Installation Association - the international trade association of companies that specialise in designing and installing electronic systems for the home) and have been for over 10 years. This ensures that the work is of the highest standard with every project meeting strict CEDIA requirements.

We pride ourselves on building excellent long-standing relationships and understand working to agreed schedule and budgets, communicating effectively with our customers.

## OUR SERVICES

- Automation and Control
- Audio Visual Systems
- Lighting Solutions
- Home Cinema
- Wi-Fi
- Security Installations
- User Training
- Turn-Key Solutions
- Full System Support

## WORKING TOGETHER CREATING THE DREAM

We work with you to make your AV dreams a reality; from the smallest of aerial installations to the greatest home cinemas, Clarke Infinity offer the same supreme service.

Our expertise is unrivalled and our high-end technical knowledge ensures a tailored solution to suit your lifestyle needs. Whether that is a lighting solution to reflect every occasion; from reading in bed to mood lighting at a dinner party; or a home cinema that is pre-programmed so you simply touch a button on a control panel or phone and your smart home dims the lights, lowers the blinds, turns on the home cinema projector and movie server and reclines your seat creating the perfect movie watching environment.

We take time to understand your needs and ensure that each system is simple, intuitive and personalised. We review plans, visit the site/property and liaise with interior designers, architects, contractors, and most importantly, we talk to you to get a full understanding of what you are looking to ultimately achieve.

When it comes to home entertainment or security needs, we are trusted by our high-end residential clients all over the world because we offer a bespoke service that draws heavily on our holistic expertise. Whatever the environment, we can tailor a solution to suit your lifestyle needs.

Talk to the team at Clarke Infinity on 01277 624444 and make your home work for you.

“We are thrilled with the work delivered by Clarke Infinity! From our initial meeting to talk about our aspirations, through to the design and the installers, we were hugely impressed with their professionalism and expertise. We would highly recommend them – they listen and deliver!” Client, Jean Cooper

## AUTOMATION AND CONTROL

Clarke Infinity is one of the leading suppliers of advanced integrated control systems in residential, commercial and marine installations.

With so many devices in a property, such as lighting, security, music and entertainment systems, heating and cooling, a control system ties all these together allowing you to control everything from a touch screen, button panel or phone. Cables criss-crossing your house and multiple remotes are a thing of the past.

A control system is the “brain” of your property making your home smart and work for you. Our AV solutions complement your property, making your home even more comfortable, energy-efficient, secure and enjoyable. Each control system is completely custom programmed to suit your requirements, enabling us to provide a fully customised and updateable solution, allowing technology to make your life easier and move with the times.

Whether you are after a fully automated home, a lighting solution where your lights and blinds are pre-programmed to respond to changing occasions, seasons and light levels or your system programmed with a movie option where one button from your phone turns on your TV and DVD player, streams a movie from your movie library, selects the correct input on the surround sound amplifier and dims the lights, we can help.

Talk to the team at Clarke Infinity on 01277 624444 and make your home work for you.

## AUDIO

Enjoy music effortlessly throughout your home with an audio system installed for your listening pleasure.

Our specialist team can make your AV dreams come true with stunning state of the art integrated digital music systems that can deliver audio and video to each room, each floor, and each area of your home, through to advice and installation of incredible speakers and digital power amplifiers delivering amazing sound and controllers with built-in music server, making it easy to appreciate your favourite music in high definition audio.

Our custom designed systems allow you to choose from and operate all of your audio and video options from your personal collection (DVD, CDs, ipod) satellite, radio, favourite streaming music services and more from any touch screen in your home. Play one song in the kitchen and a different song in the garden, or stream the same song to every-room.

All you have to do is tell us what you would like and our programming team prepares specific buttons on your touch screens that give you immediate access to the programming you want, making everything just the touch of a button away.

We design open platforms system which enables us to work with leading brands, ensuring you have ultimate choice over the devices and products you wish to use.

Talk to the team at Clarke Infinity on 01277 624444 and enjoy effortless audio at your fingertips.

Client, Danny West said:

“I have loved music all my life and the sound system that was designed and installed by Clarke Infinity takes my passion for music to another level. The sound is truly outstanding and the service delivered by Clarke Infinity was first-class.”

## AUDIO OPTIMISATION

Achieve audio perfection with an audio survey, test your room and ensure the best quality acoustics.

- Audio Optimisation
- Acoustic Design
- Acoustic Treatment

Even the very best sound equipment is affected by the acoustic environment, if a room echoes and reverberates equipment will not achieve its full audio potential. An acoustic survey provides the data to allow you to create the best possible acoustic environment whatever the room, be it your kitchen, lounge, home cinema or a public building.

Contact the team at Clarke Infinity on 01277 624444 to book an audio survey.

## MULTI-ROOM AV HD VIDEO DISTRIBUTION

Our versatile solutions, designed for you, deliver the perfect fusion of multi-room, high-resolution audio and smart home automation.

Enjoy multi-room AV installed in your home, this will not only dramatically improve on the factory sound from your TVs but will enable you to link not just your Audio but all of your High Definition Video sources together to achieve seamless integration.

Watch TV, enjoy Sky, access your movies, stream video, power up a game or enjoy your music library, integrate your Apple TV, Amazon Fire, Netflix, Hulu, access your CCTV and more throughout your home. Access multiple sources and send to numerous TVs throughout your home in HD, effortlessly. This along with synchronised audio will create a fantastic environment to play movies, listen to your favourite tracks and entertain your friends effortlessly.

## CD/DVD SERVER

A movie server is a great addition to any home, providing central storage of music and movies which can be access via your multi-room AV system. This enables you to enjoy your movie/music library throughout your home at the touch of a button using a simple interface without buffering or scrabbling around with a DVD or CD player.

## WI-FI

Excellent Wi-Fi has become a vital ingredient of our daily lives which we expect to work flawlessly. Wi-Fi is central to AV installation and modern day living.

Clarke Infinity recommend Ruckus which is presently the best on the market for secure, high quality, Wi-Fi. Just some of the benefits include:

- Wi-Fi coverage for the entire property
- Multi-networks set up
- Pre-programmable settings
- Excellent reliability

Talk to the team at Clarke Infinity on 01277 624444 about a Wi-Fi package to suit you.

## 4K HD

4K HD is the new standard for high-definition video and is redefining the home entertainment experience. Enjoy films, stream video and experience a whole new level of gaming with stunning 4K HD distributed throughout your home.

We can recommend and install complete systems or suggest open platform options that can utilise your existing TV and home cinema if you wish.

## HOME CINEMAS

Create a luxurious cinema in your home – a haven for you to enjoy music, gaming and film.

A Clarke Home Cinema, seeks to reproduce cinema quality visual and audio within your home. No detail is overlooked - we deliver the most performance and style out of every system we create. Attention is paid to each part of the system, from lighting right through to drapes, everything is designed with your enjoyment in mind.

Designed by our expert team, your bespoke cinema will deliver an amazing experience, reflect your lifestyle, be reliable and intuitive to use.

Quality audio reproduction is achieved with a state-of-the-art high fidelity surround sound system which creates immersing and life-like audio. The video aspect usually involves a high definition television or a projection system with movie screen. Technically, your home cinema can be as basic as you require, or as complex and sophisticated as your house allows.

### CINEMAS BY CLARKE INFINITY...

- Stunning surround sound
- 4K Projectors
- Automated blinds
- Bespoke seating
- Storage devices for scrolling movies
- Pre-programmable lighting to set the mood
- Dolby Atmos sound
- Room acoustics
- Luxury

“From start to finish, the team at Clarke Infinity have been excellent, they understood what we wanted and made it happen – our expectations have been surpassed.” Client, Darren Wickins

## LIGHTING SOLUTIONS

Lighting adds elegance and ambience to any space, sets the mood and enhances safety.

At Clarke Lighting, we have a team of specialist lighting designers who will advise you as to the very best way to light your living environment.

Make your home appear occupied while you are away. Raise or dim any light in the room or the entire house, turn on or off multiple rooms or throughout your home with a single touch. It's more than smart lighting; it's about enhancing your living experiences.

The lighting solutions would be fully customised and pre-programmed to suit how you live - reflecting your lifestyle and changing moods. This creates the perfect lighting, whether relaxing watching a film, reading in bed or entertaining in the garden at night.

Our team would design a lighting solution tailored to you...

- fully integrated lighting system that provides you with a complete lighting control system, transforming each area as the mood dictates
- fully maintained security lighting systems to control landscape and exterior lighting without the need for times and switches
- 'All off switch' - ensuring leaving the house or heading to bed is hassle free
- seamlessly integrating the control of electric light and daylight
- stunning lighting that dramatises architectural features
- control individual lights and automated
- delivering energy efficiencies

Contact Clarke Infinity's Lighting designer now on 01277 624444 to discuss how an effective lighting system could benefit your home.

## SECURITY INSTALLATIONS

Clarke Infinity are specialists in security installations from intercom to CCTV solutions putting your safety and security at the forefront of plans.

Just some of the benefits of our security installations:

- reliable
- cost effective
- discrete solutions
- integrated with existing systems
- accessible via smart phones and tablets
- standard definition and full high definition options
- night vision cameras
- software to monitor unusual behaviour

What the client said...

“We really enjoyed working with Clarke Infinity, their expert knowledge and professionalism were a great addition to the team and the finished result is impressive and has the WOW factor we were after!”

## CCTV

CCTV is an integral part of home security with systems influenced by smart TV's, tablets and phones systems allowing you to view and navigate through your camera system effortlessly.

Access your CCTV system from your phone or tablet from anywhere in the world. This along with email notifications sent directly to your phone if a sensor beam is triggered, gives you the best opportunity to react as fast as possible to anybody trespassing or a possible break-in.

CCTV Systems come in all shapes and sizes. Please talk to our team to advise you on the best solution for you and your home.

## INTERCOM

Intercom that works for you...

Clarke Infinity deliver an exceptional audio and video intercom experience that can be completely integrated within your home, providing you a greater sense of comfort and safety.

Would you like to monitor who is at the front door or your front gate? Our installations let you view your front door before answering and so much more. Features include cameras with infrared light and night vision, the ability to view video and open doors from your phone and an integrated camera which captures a picture of your visitors when they press the door button and, if you wish, emails the images to you; all delivering the ultimate in security for you and your home.

Just some of the benefits of our intercom solutions:

- Luxurious designs
- Robust, durable systems designed to work seamlessly in the harshest weather conditions
- Easy integration with third-party CCTV systems
- Compatibility with Crestron, Control 4 and other smart control systems
- Picture to email - capturing every visitor even if you are away from home with the exact time they visited and a number of images
- Pre-programmable options to make the system work for you whether that is emailing you photos of visitors or programming the house alarm to sound if the door is forced, the system is tailored by the team at Clarke Infinity to your needs
- Peace of mind

Please contact us if you would like to arrange an appointment to talk about a security installation for your home.

## BEHIND THE SCENES

At Clarke Infinity, our experienced team will design a solution that works for you and your property. We design systems that tidy away cabling, maximise performance and safeguard equipment.

Our teams' technical knowledge, combined with years of practical application, ensure you are in safe hands. We are best placed to advise you regarding a range of "behind the scenes" options, from a bespoke equipment rack in an air-conditioned room, a small rack in a cupboard, electrical surge protection, battery back-ups for essential equipment such as your router, Wi-Fi, CCTV and intercom, and much more.

We will talk you through a range of options from perfect scenarios to practical solutions and find the best for you. Talk to the team at Clarke Infinity today on 01277 624444.

## SYSTEM SUPPORT

We offer a bespoke service and each system is completely custom programmed to suit your requirements, enabling us to provide a fully customised and updateable solution, allowing technology to make your life easier and move with the times.

We pride ourselves on delivering systems that exceed expectations yet are simple and intuitive to use. We offer full user training and system support so you can feel confident you are in safe hands.

## TAILORED TO YOU

Our AV solutions are tailored to you – making your home work for you and your life easier.

We believe the design of any AV is fundamental and we ensure that your dreams are transformed into reality by careful and considerate design. Whether you are considering a starter package or a fully automated home or cinema, you can be assured of our excellent service and attention.
