

SECURE ACCESS, INSTANT SUPPORT

Remote service monitoring for the home – Network problem solving in real-time at the touch of a button

Would you like support with issues on your home network at the touch of a button? With Clarke Infinity's new Infinity Pro Support – remote network monitoring, you can request remote tech support from our expert team in just one click.

Installed easily alongside your current equipment, Infinity Pro Support sits on your network in the background adding a layer of security to stop intruders and enables our team to diagnose and fix network and equipment issues quickly and efficiently as well as remotely re-booting your system.

Our Infinity Pro Support package costs just £35 + VAT per month and allows you to:

- Request remote support from our team of AV experts to jump on your network to resolve/ diagnose problems remotely over a secure connection
- Remotely re-boot any device on your network
- The ability to easily block or grant devices access to your network

- Automatically report status changes of any device status changes to the cloud and web apps in real-time
- Improve network security and stop intruders accessing your network
- Monitor and check your internet speed
- View your network on the user-friendly app and interface
- Access support 7am-7pm, 7 days a week
- Benefit from special rates for on-site maintenance

Choose Infinity Pro Support for:

- Reliable support
- Quick response
- On hand experts
- Peace of mind

Talk to our team on 01277 624444 today to discuss installation of Infinity Pro Support and our support service to ensure your issues are dealt with in real-time.
