

CLARKE INFINITY - BRINGING CINEMA TO YOU

The Background: Clarke Infinity has worked with the owners of Greyfriars many times and were called in when Alan and Marion Cornish wished to create a dedicated home cinema. A space where the whole family could relax and revel in their love for music, gaming and film.

The Challenge: To create a magnificent cinema in a room which has a round feature window that the couple wished to retain, benefiting from the light when the screen was not in use. Alan and Marion wanted a stunning 7.2.2 Atmos cinema but with

discrete hidden equipment and for the room to be comfortable and adaptable.

The Solution: Clarke Infinity's years of experience and technical knowledge enables them to design and implement solutions that best fit a client's individual needs. Technology and brands are hand-picked to respond to a client's brief. Making the room work for every use was key; Clarke Infinity achieved this by installing a 116" VuFlex Pro motorised screen which rises from a discrete floor unit when required.

“Working to make our client's AV dreams a reality is a privilege, it is even more special when it is a family you have worked with over many years. The Greyfriars cinema packs a cinematic punch visually and acoustically which the clients are delighted with.”

Simon Clarke, Founder, Clarke Infinity

Our Services

- Site visit and survey
- Liaison with clients, interior designers, architects and contractors
- Bespoke design, quotations and installation by expert team
- Audio Visual systems
- Lighting
- Automation and control
- Home Cinema
- Security installations
- Telecommunication
- Full System Support
- User Training
- Turn-Key Solutions

The Solution (cont): The equipment rack was neatly hidden behind an automated Lutron blind personalised with a favourite movie poster image. Eleven, completely hidden, Amina speakers deliver high quality cinematic sound wherever you are in the room and the Sony 4K projector amazing crystal clear image quality. Wyrestorm SW-0402 PIP delivers a great solution for multi-screen gaming for the family's Xbox One games consoles allowing for 4 simultaneous HD images.

Clarke Infinity recommended a Crestron HR-150 remote to do away with the plethora of remotes often found in a living room. The one pre-programmed intelligent remote controls the amp, projector, screen, blinds, lighting and more making the system extremely easy to use.

The Equipment

- Crestron CEN-RFGW-EX Gateway
- Crestron HR-150 Remote
- Sony HW300 4K Projector
- Vu Flex Pro Motorised Screen floor mount
- Yamaha RX-A3060
- Amina Speakers and Subwoofer
- Wyrestorm MX-0808-POH-H2
- Wyrestorm SW-0402-MV-HDBT PIP
- Lutron Sivoia QS Blinds
- Lutron QS Homeworks Lighting System
- Middle Atlantic Equipment Rack
- Xbox One Consoles
- Visualint CCTV NVR
- Visualint Starlight Cameras

Alan Cornish said: "It is a pleasure to work with the team at Clarke Infinity. We completely trust their expert knowledge and workmanship, basically they listen and deliver. We are very happy with our new cinema room – the execution was faultless and the end result perfect!"
